Subject: **Request for Proposals**  
Petrographic Analysis Term Contract 2020-2022

To Whom It May Concern:

The Montana Department of Transportation (MDT) is accepting proposals from consulting firms interested in a term contract for performing petrographic examination and analysis of hardened concrete on MDT projects at various locations throughout Montana.

MDT intends to establish term contract(s) to utilize consultants on an "as-needed" basis for the work described herein. At this time, the intention is to award two (2) agreements that will be approximately \$150,000 each, for a three-year period from March 2020 through December 2022. MDT reserves the right to revise the number of term contracts, the contract values, or contract timeframes, depending on the responses received. Extension(s) of contracts, by mutual agreement of both parties, may be made at one (1) year intervals, or any interval that is advantageous to MDT. Contracts, including any renewals, may not exceed a total of five (5) years.

Teams may be established as necessary; however, it is expected that the prime consultant will be capable of completing the vast majority of the work. As a rule, the prime consultant must complete at least 50% of the work for a specific task assignment unless written exception is given.

Professional engineering licensure is required for this work and must be in-hand at the time your proposal is submitted. If this requirement is not met and clearly identified in the proposal, your proposal will be considered non-responsive.

If your firm is interested, please submit a proposal as described herein.

## **SCOPE OF WORK**

This work will consist of petrographic analysis of hardened concrete governed by ASTM C856. Upon contacting the selected firm, MDT will provide cursory information about the failure occurring to the concrete in question. As requested, the firm will provide MDT recommendations for concrete samples necessary for proper evaluation (i.e. quantity, location, size, etc.). After discussion with the selected firm, MDT will collect the samples and ship them. Based on the failure mechanism(s) and samples collected, the petrography firm will recommend a testing protocol to be approved by MDT. Upon receipt of the cores from MDT, the consultant will provide MDT their draft report within thirty (30) calendar days. The draft report will include results of the petrographic analysis. The consultant will also provide MDT a final report within sixty calendar days of receipt of cores. The final report will provide possible failure mechanisms and possible causes as well as applicable remediation options. As requested, provide consultation services throughout the claims process including claims avoidance, negotiation and litigation. Consultation may also be requested by MDT for the purposes of claims avoidance in addition to certified claims assistance. Professional services may be requested by MDT which may include official recommendation, deposition and testimony by the firm's expert(s).

#### **Questions**

##### **1) Team Qualifications**

Provide a discussion on how the team you propose to use for this contract (including subconsultants, if used) is best qualified to respond to the requirements of this contract. Discussion should focus on the requirements for this specific contract, particularly your team's expertise and experience, as it relates to the work described in the "Scope of

Work” section above. Provide examples of previous related experience as it relates to these services. Identify professional licensure of staff that satisfy the requirements for this contract. Include an organization chart that indicates the staff identified for this contract, their area of expertise, registration, and office location(s). Also briefly discuss your compatibility of systems, software, and equipment (i.e. testing/lab equipment, word processing software, etc.), and experience with these systems, software, and equipment. Describe any special equipment or software you intend to use. Include a resume in Appendix A for all concrete petrographers and Professional Engineers that are anticipated to play a key role in this contract work. Resume information should include each of these individual’s professional background and qualifications. Resumes will be considered as supplemental information for scoring this question.

## 2) Approach to Task Assignments

Transportation work has many challenging aspects, and the development and delivery of a successful work product that addresses and mitigates specific challenges is of utmost interest to MDT. Discuss the challenges you foresee as they relate to this type of work, your strategy for addressing these challenges, and your specific experience in implementing the strategies identified. Describe your quality assurance/quality control process. Include a discussion on the current and projected workload of key personnel and the effects that workload would have on your ability to successfully complete work under this contract. Provide a discussion on your overall strategy for delivering work in a timely manner, including fast-tracked or emergency tasks and changing priorities.

### Appendix A: Resumes

Include a resume of the professional background and qualifications of all concrete petrographers and Professional Engineers of your firm that are anticipated to play a key role in this contract work. **Resumes are limited to two (2) pages per person.**

### Appendix B: Cover Page Form

Include a completed version of MDT’s standard cover page form, available at the following location:

[http://www.mdt.mt.gov/other/webdata/external/cdb/MDT\\_CDB\\_002\\_Proposal\\_SOQ\\_Cover\\_Sheet.pdf](http://www.mdt.mt.gov/other/webdata/external/cdb/MDT_CDB_002_Proposal_SOQ_Cover_Sheet.pdf)

Information presented in the cover page form will not be considered in proposal scoring.

### Appendix C: References

Submit references that includes a minimum of five (5) separate contracts from the past three (3) years. If applicable, you may submit multiple contracts for a single client. Each contract must pertain to work similar to the proposed scope of services. Include client name, a currently employed primary contact person, an alternative contact person, corresponding valid phone numbers and emails for both contacts, a range of contract value, and a brief description of the work performed. If MDT needs to use these references for the Past Performance Score (as described in the “Evaluation of Proposals” section below) and is unable to contact the required number of references after a reasonable effort, the firm will receive a zero for the missing reference(s).

## **EVALUATION OF PROPOSALS**

All proposals will be evaluated in accordance with the following factors:

- 1) Team Qualifications (100 points possible)**
- 2) Approach to Task Assignments (50 points possible)**
- 3) Record of past performance (30 points possible)**
  - a) If two (2) or more MDT evaluations specific to the discipline for this contract are available for the consultant, the average score of these evaluations will be used.
  - b) If fewer than two (2) MDT evaluations specific to the discipline for this contract are available for the consultant, but there are two (2) or more MDT evaluations are available for other work disciplines, the consultant's current overall past performance score from MDT evaluations will be used.
  - c) If there is only one (1) MDT evaluation available for the consultant, the record of past performance score will be an average of the MDT evaluation and one (1) reference check from the references provided in the unbound attachment.
  - d) If no MDT evaluations are available, the average score of two (2) reference checks from the references provided in the unbound attachment will be used for this score.Regardless of partnership/teaming relationships, the past performance of the prime consultant will be the past performance scored that will be used for this score.

All Proposals will be evaluated using the following basic scoring methodology:

- Outstanding/Exceptional response: 90-100% of the available points
- Good response: 70-90% of the available points
- Average response: 50-70% of the available points
- Poor response: 30-50% of the available points
- Qualifications not clearly met: 0-30% of the available points

Following the review, evaluation, and rating of all proposals, the final results will be presented to the Consultant Selection Board at the MDT Headquarters Building. At this time, the Consultant Selection Board will select the most qualified firm(s) for TERM CONTRACT(S). The Board may consider any proposal scoring within 2% of another proposal as equally qualified and take into account its knowledge of the firms' workload, past performance, and familiarity with the specific work to be performed in selecting the most-qualified consultant(s).

## **SELECTION OF CONSULTANTS FOR TASK ASSIGNMENTS**

If multiple consultants are selected and multiple term contracts are awarded, task or work orders (term assignments) will be awarded through an additional qualifications-based selection procedure. This selection procedure will be comprised of selecting a firm in accordance with the following weighted factors:

- 1) Qualifications for specific Task Assignment (60 points possible)**
  - a) Using the proposals submitted in response to this RFP and work performed with MDT since the submittal of this proposal: an evaluation of the consultant's qualifications as related to the specific knowledge, skills, and abilities required for the individual task assignment, including familiarity with the region in which the task

- assignment is located. Firm office location is not the determining factor for this score. (50 points possible)
- b) As relating to this type of work, the firm's current workload and amount of recent work with MDT. (10 points possible)

### **INDIRECT COST RATE REQUIREMENTS**

Proof of the firm's Indirect Cost Rate (overhead rate) is ***not required*** with this proposal submittal. However, an Indirect Cost Rate may be required prior to executing a contract according to MDT's Indirect Cost Rate Requirements:

All submitted indirect cost rates must be calculated in accordance with 23 CFR 172 for the cost principles of 48 CFR part 31 and include the required items identified in the MDT Indirect Cost Rate Policy located in Appendix A of the Consultant Services Manual on the MDT Internet website.

***Do not show any actual numerical financial information such as the overhead rate or personnel rates within your proposal. Specific cost information of the firm or team should not be part of the proposal.***

### **AGREEMENT REQUIREMENTS**

Contract agreements will generally be administered on a cost plus fixed fee basis. The contracts will have negotiated cost ceilings. If a consulting firm is selected for a specific contract and a contract agreement is successfully negotiated, certain financial information will be required as part of the contract agreement. As described in the Indirect Cost Rate Requirements section above, all Consultants and subconsultants must provide the Department with an Indirect Cost Rate (as applicable) audited (when applicable) in accordance with 23 CFR 172 for the cost principles of 48 CFR Part 31 and based on the firm's latest completed fiscal year's costs. Personnel rates, profit, and direct expenses must be clearly outlined and provided to the Department. The standard MDT agreement can be found at the following address:
