NOTICE TO BIDDERS

The following projects are funded in whole or in part by funds received from the Federal Highway Administration (FHWA), and their construction is wholly contingent on the state's continued receipt of those federal funds. Any bidder on these projects, by submitting its bid or bids, understands and accepts the possibility of the contracts being terminated in the event federal funds are reduced or not available and by submitting any bid, each bidder waives any claims for costs or damages other than as specifically allowed by Subsection 108.10.2. In particular, bidders understand and accept that no payment will be allowed for any claimed anticipated profit for work not performed.

MDT will not discriminate on the basis of race, color, national origin or sex in the award, performance or administration of any MDT contract or in the administration of its DBE program (49 CFR Part 26). MDT attempts to provide reasonable accommodations for any known disability that may interfere with a person participating in any service, program or activity of the department. Alternate accessible formats of this document will be provided upon request. If reasonable accommodation is needed to participate in MDT bid lettings, call the Civil Rights Bureau at 406-444-6331 or TTY 406-444-7696 [TTY 1-800-335-7592 (toll free)].

NOTICE TO BIDDERS

The following projects are funded in whole or in part by funds received from the Federal Highway Administration (FHWA), and their construction is wholly contingent on the state's continued receipt of those federal funds. If the federal funds are reduced or not received, the Department may choose to terminate any or all of the contracts for convenience under the provisions of Subsection 108.10. Any bidder on these projects, by submitting its bid or bids, understands and accepts the possibility of the contracts being terminated in the event federal funds are reduced or not available and by submitting any bid, each bidder waives any claims for costs or damages other than as specifically allowed by Subsection 108.10.2. In particular, bidders understand and accept that no payment will be allowed for any claimed anticipated profit for work not performed.

Contractors who bid as a prime bidder on this project must have at least one full time, permanent employee present. No proxy representatives, such as subcontractors or consultants, meet this requirement. In the event a prime bidder tenders a bid but did not attend the pre-bid conference, the bid will be returned unopened.

Representatives of the Department and representatives of the Department and the Crow Tribe will be present to describe the project and answer questions. The pre-bid conference is for information only. The Department is not bound by any statement or representation concerning conditions or description of the work given by Department employees or agents and the pre-bid conference. The answers to any questions raised are non-binding oral explanations or instructions, and relying on them is solely at the Bidder's risk. Any issues raised at the pre-bid conference must be posted on the Question and Answer Forum to be considered an enforceable provision of the contract to be let. The pre-bid attendee list and contract document clarifications or modifications considered necessary by the Department will be posted to the Question and Answer Forum.

General Information

- MDT's current bidding program, Expedite™, for contracts let through the Contract Plans Bureau has been in use since the late 1990's. It is an old Windows based program and is nearing the end of its functional life.
- Expedite™ and Project Bids™ are sponsored by AASHTO, and produced by InfoTech, Inc. which produces all the AASHTOWare™ suite of software products used by the majority of state transportation agencies. Thirteen states have transitioned to Project Bids™ at this time, and the migration in those states has been successful.
- Prime contractors currently prepare and submit their bids to the MDT Contract Plans Bureau using Expedite™. This is true whether they submit a 'paper' bid delivered to Contract Plans on bid letting day, or submit it remotely using the Bid Express Internet Bidding Service. This process will remain the same using Project Bids™.
- AASHTOWare Project Bids™ is a free software. There is no fee for use of the software program. However, there are fees associated with the Bid Express Internet Bidding Service for prime contractors who elect to submit bids remotely. Subscribing to the Bid Express Internet Bidding Service is not required now, nor will be in the future.
- Prime contractors who are Bid Express Digital ID holders must obtain a new Digital ID (Digital Signature). This will be free for existing Bid Express subscribers. Note: The credit card on file will be charged \$100 when creating the new Digital ID, but the \$100 will be credited back once Bid Express verifies that the vendor's account is in good standing.
- The look and feel of Project Bids™ is very similar to Expedite™. The transition should be very easy for contractors.
- Bid Express will provide assistance to Bid Express Digital ID holders migrating to the new software. Visit www.bidx.com Phone (888) 352-2439, or email customer.support@bidx.com for more information. They will send a notice to active Bid Express Digital ID holders for Montana on October 23, 2017 to begin the process.
- MDT Contract Plans will be able to provide customer assistance for installation to non-Bid Express subscribers. NOTICE TO BIDDERS

The following projects are funded in whole or in part by funds received from the Federal Highway Administration (FHWA), and their construction is wholly contingent on the state's continued receipt of those federal funds. If the federal funds are reduced or not received, the Department may choose to terminate any or all of the contracts for convenience under the provisions of Subsection 108.10. Any bidder on these projects, by submitting its bid or bids, understands and accepts the possibility of the contracts being terminated in the event federal funds are reduced or not available and by submitting any bid, each bidder waives any claims for costs or damages other than as specifically allowed by Subsection 108.10.2. In particular, bidders understand and accept that no payment will be allowed for any claimed anticipated profit for work not performed.
