

SALMON LAKE

2020-2023

HIGHWAY RECONSTRUCTION

The Montana Department of Transportation (MDT) will reconstruct Highway 83 along the east side of Salmon Lake beginning in 2022. Safety improvements include constructing a wider roadway, improving the alignment, and improved slopes and ditches. Construction is anticipated to be complete in 2023.

Due to the highway's location in this popular recreational and tourist area, MDT is committed to working closely with the public and stakeholders throughout the design and construction process.

There will be several opportunities to engage with the project team, and MDT encourages you to get involved, share your input and learn more about this important highway improvement project.

For more information, please visit the project website, email, or call:
