

2013 MT Aeronautics Winter Survival Clinic

MDT Aeronautics Division invites you to attend the 2013 MT Aeronautics Winter Survival Clinic. This year the clinic will be in Marion, MT.

January 11 – 13, 2013.

We are excited for the clinic this year and we hope to see you there. You will have the option to sleep inside a building or make a snow shelter and sleep outside. The option is yours!

The clinic is geared toward all aviation pilots in the event that an emergency landing takes place and you need to survive until help arrives; however, these skills can be used by anyone that finds himself or herself in a survival situation. Also included is emergency medical training.

Northern Lights Training Group will be teaching the clinic. This group consists of three Special Forces Instructors one of which is Frank Bowen. Frank has over 20 years of military service, attaining the rank of Master Sergeant before retiring in 2005. Frank is a career Instructor/Trainer, having trained some of the world's most elite soldiers. Currently Frank is a POST certified instructor for Weapons and Tactics, including Firearms, Defensive Tactics, Use of Force, Counter Terrorism, Outdoor Survival, and Simunitions. Come and join us in western Montana and build confidence and gain survival techniques.
