

# WHITEFISH STAGE ROAD

The Montana Department of Transportation (MDT) will reconstruct Secondary Highway 292 (S 292), commonly known as Whitefish Stage Road, between West Reserve Drive and Montana Highway 40 (MT 40). This project is currently in the design phase. Proposed work includes:

- Reconstructing Whitefish Stage Road for about 9 miles from just north of West Reserve Drive to the intersection with MT 40.
- Adding a northbound left-turn lane at the Rose Crossing intersection.
- Widening the roadway, which will include a shoulder on each side.
- Straightening curves and flattening hills.
- Upgrading signage and pavement markings.
- Improving drainage.

## Schedule

The Whitefish Stage Road project is in the design phase. This phase includes surveys, studies and fieldwork, stakeholder engagement, right of way, construction feasibility, and funding identification.

The construction timeline is not yet finalized and is dependent on funding and completion of all project development activities.
