

Important information regarding AASHTOWare Project

CAPTURING WEATHER IN THE DAILY WORK REPORT and DAILY DIARY

After discussion with the Construction Steering Committee it was decided that we do not need to capture both AM and PM Weather. There will be one field to capture Weather and any additional remarks can be added in the Remarks section using the DWRWeather remark type.

Contract: 05219 - VARNEY BRIDGE - 8 M S ENNIS

DWR Date: 11/12/2019 Inspector: HanniD Sequence: 1 Status: Draft

Important information regarding AASHTOWare Project

If there is only one DWR for that date the Weather, Low Temperature and High Temperature will be automatically imported to the Diary. If there are multiple DWRs for that date, the 'lowest' Low Temperature will be imported, the 'highest' High Temperature will be imported and the Weather will be imported if the Weather selection matches on all DWRs, else it will be imported as blank.
