Job Title: Right of Way Appraisal Reviewer Position Number: 60026, 60051, 60055, 60087

Location: Helena

Department: Transportation

Division and Bureau: Engineering / Right of Way Bureau

Section and Unit: Acquisition / Appraisal

Job Overview: This position serves as an Appraisal Reviewer for the Right of Way Bureau within the Engineering Division and serves as a field authority in conducting property appraisals to arrive at fair market value for property acquisitions. This includes all standard and specialized property appraisal types. This position reviews completed appraisal reports and approves just compensation due to landowners. The position reports to the Appraisal Section Supervisor and doesn't supervise any FTE.

Essential Functions (Major Duties or Responsibilities):

Appraisal Review - 60%

- Drafts and recommends new or modified right of way policies, procedures, standards, and guidelines related to the MDT's right of way appraisal process based upon analysis and assessment of appraisal and negotiation needs and priorities, changing statutory requirements, professional methods and standards, and ROW goals and objectives.
- Reviews and analyzes right of way and highway construction plans to determine impacts, accuracy, and constructability issues as they affect right of way. Identifies errors and consults with staff to develop and coordinate resolutions.
- Evaluates the effectiveness of ongoing right of way appraisal procedures to identify operational efficiencies and resolve problems. Develops solutions to a broad range of complex in-progress problems encountered by department or consultant staff (e.g., property valuations, contentious determinations, etc.).
- Researches and evaluates property title information and ownership data to determine the impacts of various technical and legal issues on the valuation of the subject property.

- Provides guidance to district right of way agents and consultant staff throughout the appraisal process on assigned projects. Coordinates and is responsible for initial appraisal scope of work and provides guidance to staff and consultants assigned to do appraisals for the project.
- Provides guidance in coordinating and/or conducting site inspections of subject properties and comparable sales to determine sales equivalencies and necessary appraisal adjustments; coordinates contracted services to develop value estimates of site improvements to be purchased; and documents technically and legally defensible valuation conclusions for incorporation into final appraisals.
- As an authority for appraisal projects, the incumbent is responsible for the most contentious and/or complex appraisal projects, such as partial take, multiple use, condemnation, and commercial/residential appraisals and subsequent negotiations. Provides project valuation services to MDT legal staff by providing expert valuation analysis or other valuation services as requested.
- Conducts formal right of way appraisal reviews to resolve discrepancies and maintain consistency among appraisal project reports. Recommends right of way appraisal methods and justifications for final compensation adjustments and has authority to approve an appraisal or reject any appraisal found not to be in compliance with MDT/State/Federal regulations.
- Conducts appraisal reviews as necessary to resolve discrepancies and maintain consistency among appraisal project reports. Recommends appraisal methods and justifications for final compensation adjustments to supervisors and/or review appraisers. Coordinates with the supervisor and/or Review Appraiser to identify and resolve discrepancies. Operate in data retrieval, data entry, and data analysis
- Communicate with the department management regarding appraiser quality control
- Support the Appraisal Section in assuring high quality appraisal and review standards are accomplished
- Participate in and/or facilitate resolutions of individual appraisal conflicts

Appraisals - 20%

- Researches and evaluates property title information and ownership data to estimate the impacts of various technical and legal issues on the valuation of the subject property.
- Coordinates and/or conducts site inspections of subject properties and comparable sales to determine sales equivalencies and necessary appraisal adjustments; coordinates contracted services to develop value estimates of site improvements to be purchased; and documents technically and legally defensible valuation conclusions for incorporation into final appraisals.
- Analyzes and evaluates appraisal information to determine appropriate amounts of State compensation for each parcel of property to be acquired. As a field authority for appraisal projects, the incumbent is responsible for the most contentious and/or complex appraisal projects, such as partial take, multiple use, condemnation, and commercial/residential appraisals and subsequent negotiations.

Right of Way Operations - 15%

- Develops and delivers training sessions to agents to fulfill training needs identified by the incumbent, district right of way managers, and/or the right of way bureau (e.g., conflict management, new appraisal methods and standards, etc.).
- Apprises Appraisal Supervisor of team and individual performance on various projects. The incumbent may also participate in staff recruitment and selection committees to ensure objective and appropriate staff appointments.
- Conducts or oversees pre-appraisal scope of work report and other special studies to research and document information related to right of way costs; structural elimination, inclusion, or preservation during construction; present and future needs based on the highest and best use of properties; and other information that is critical to the effectiveness of district operations as well as individual appraisal projects.
- Develops and monitors contracted service delivery to ensure the efficiency and overall quality of fee appraisal services. Identifies and notifies service providers of errors or deficiencies, refers recurring or severe problems to the Appraisal Manager for resolution, and provides ongoing guidance and technical assistance as requested.
- Coordinates right of way valuation information as required for relocation processes, computes, and recommends value break outs on multipurpose properties and provides market rental or purchase information as requested.

Other Duties - 5%

Performs a variety of other duties as assigned by the supervisor in support of the Department mission and Division objectives.

Supervision

The number of employees supervised is: 0

Physical and Environmental Demands: This position functions in a typical office environment with travel to project locations as needed.
