Memorandum

To: Distribution

From: Paul Ferry, PE
Highways Engineer

Date: April 6, 2006

Subject: Summary Subtotals

This is to notify everyone on the distribution that we will no longer be showing subtotals on the bottom of summary frames where the summary extends onto subsequent pages such as a culvert summary, or has a continuation of the summary on the same page such as Additional Grading.

Subtotals must still be used in all other cases where a subtotal is appropriate, for example; projects with multiple sites, project splits, etc.

This memo is effective for all projects that have not been turned into the checkers by April 14, 2006. If you have any questions please contact me at 444-6244.

pf

Distribution
