From 12/22 Notes: What do we need to have ready for the release. Include schedule prepped for follow up conversations and education opportunities. Have media response talking points prepped internally. Do FAQ with the press release. One talking point/FAQ should have a message about how this work may/may not relate to federal

Wildlife Crossing Pilot Program funding opportunity, as that will be a question from media/others. Same sheet of music for us all to refer to.
