

STEERING COMMITTEE

The Steering Committee was formed in the fall of 2019 and is comprised of two representatives each from MDT, FWP, and MSWP.

The Steering Committee seeks to build a foundation of resources, information, and knowledge for broad stakeholder engagement to address wildlife and transportation challenges in Montana. They are turning the recommendations resulting from the Summit into action through communicating regularly, aligning under common goals, prioritizing work tasks, leveraging capacity and resources, and forming work groups.
