

Churchill Road

GODFREY CREEK BRIDGE

The Montana Department of Transportation is replacing the Godfrey Creek Bridge located about 3 ½ miles south of Churchill near Kimm Road. The concrete structure, originally built in 1949, is deteriorating and requires heavy maintenance. The new structure will reduce maintenance costs and provide a safe, long-lasting crossing over Godfrey Creek.

Churchill/
Manhattan

Highway 84

IMPROVEMENTS WILL INCLUDE

- Replacing the Godfrey Creek Bridge with a reinforced concrete box culvert.
- Regrading and resurfacing the adjacent roadway on each end of the bridge.
- Replacing the guardrails.
- Adding new pavement markings and updated signage.

WHAT TO EXPECT DURING CONSTRUCTION

- Construction is anticipated to take about one month to complete (depending on weather).
- Churchill Road will be fully closed to traffic over the bridge.
- The closure will last 2-3 weeks.
- Traffic will be detoured using Cameron Bridge Road and Highland Road.

STAY INFORMED DURING CONSTRUCTION

MDT will notify the public about traffic impacts and work activities through the project website, local media, mailings, social media, and email and text notifications during construction.

Current construction information and road conditions can be found on the MDT Travel Info. Map and App at: www.511mt.net
