

# CONSTRUCTION AHEAD

## LINCOLN – APPLGATE INTERSECTION

APPLGATE DRIVE

# Lincoln – Applegate Intersection Project

The Montana Department of Transportation (MDT) and Hoffman's R&M Services LLC are constructing a roundabout at the intersection of Lincoln Road and Applegate Drive north of Helena.

### What improvements are planned?

- Constructing a roundabout with 12-foot travel lanes and 2-foot shoulders
- Constructing an 18-foot-wide “truck apron,” which is a slightly raised surface that allows large trucks to make turns at the intersection
- Constructing pedestrian crossings on each side of the roundabout
- Installing lighting, curb, gutters, and no-maintenance landscaping in the center median
- Targeting a 15-mph speed for motorists entering the roundabout

### Why is the project needed?

The purpose of this project is to enhance safety features and improve traffic operations at the intersection. Between 2005 and 2015, a total of 39 crashes occurred at this intersection, including one fatality and three incapacitating injuries. In addition, the north valley outside of Helena has experienced rapid growth in recent years due in part to developmental activity and changes in land use. Traffic volumes have been increasing rapidly near the Lincoln Road and Applegate Drive intersection compounding the issue and increasing the likelihood of crashes.

SEE REVERSE FOR MORE INFORMATION.

**Construction is anticipated to begin in June 2026 and take a single season to complete.**

### **What to expect during construction:**

- Reduced speed limits
- Single-lane traffic through the project area
- Traffic directed by flaggers or temporary signals
- Possible short-term closures
- Detour route in place
- Possible width restrictions
