### ***Public Comment Summary***

- An attendee representing a relative residing west of Shephard Way noted concerns about viable options for commercial traffic to enter and exit. Today, commercial vehicles for that property (3165 US 12) access the property from the east via the frontage road.
  - The team acknowledged that at the prior in-person open house, the resident at this property voiced a similar concern. The project team is looking into frontage road vehicle access and has a meeting scheduled for the following week to discuss further, and then will follow up with the resident.
