

INFORMATIONAL SHEET: RONAN - NORTH NH 5-2(172)47 UPN 1744019

The Ronan-Urban project was originally planned to completely reconstruct the northern 4.1 miles of the US 93 Ninepipe/Ronan Corridor. MDT has split the project into two segments to allow earlier construction of the northern segment (Ronan North). Due to complex design and right-of-way acquisition, the southern segment (Ronan-Urban) does not have a construction date set at this time.

Right-of-Way acquisition for Ronan-North is expected in 2017. The Ronan-North project will:

- Reconstruct US 93 north of Round Butte Road into a four-lane road with center or left turn lanes
- Install a traffic signal at Old US 93/ 3rd Avenue
- Close Spring Creek Road at US 93
- Install a trail along US 93 to connect Round Butte Road with the existing trail along US 93 to Pablo and Polson
