# TARGHEE TURN LANES

The Montana Department of Transportation (MDT) and engineering firm, Robert Peccia & Associates (RPA), Helena, are currently in the design phase of the Targhee Turn Lanes project, a safety improvements project on US Highway 20 (US 20) that will address an intersection-related crash pattern near Denny Creek Road, west of West Yellowstone. The project will improve one mile of this busy corridor by installing a center-turn lane between the Mountainside KOA and Denny Creek Road and a left-turn lane at Denny Creek Road.

Join us in person or online to learn more about the project, view proposed corridor plans, ask questions, and provide feedback directly to the project team.
