Utilizing the Safe Systems Approach for Traffic Safety, what are a few grass roots things I can do on a local level?

Write a safety message for the Park City Panthers basketball team from a coach's perspective.

Live Demo

Park City Panthers, you are the pride of your town. You play hard on the court, but don't let your guard down. When you drive to and from games be careful and alert. Follow the traffic rules, wear your seat belt, and don't get hurt.

Remember, you are not only athletes, but also role models. Your fans and families look up to you, so don't take any gamble. Drive safe, play safe, and enjoy the game. Go Panthers, Go Panthers, you are the best in the state!

Other ideas-

I'm organizing a new DUI Task Force in our community. Help me write the by-laws for the coalition.

Live Demo

Course, be aware that AI generated images may not be exactly what you are expecting.

All Al generated materials, including photos do need to be confirmed. Here is a generated group of multicultural happy professional from Montana, facing the camera with dramatic lightning. Does the picture meet your expectations? What do you notice about this picture?

Does the AI generated photo believable?

Here is aa guy, in his late 40s, sitting in a chair, looking at the camera. He is ready to seek care for his substance use disorder. He is holding a piece of paper in his hand, and it says "I'm ready to get help." He is filled with hope and determination. The background of the image is a warm, sunny day. The image is bathed in a warm glow, representing the hope and promise of recovery.

Graphics can be generated . Here is a sunrise logo, simple, negative space

Pixar –type carton, featuring a very happy, silly owl wearing red shoes and a hat hosting a teas party.

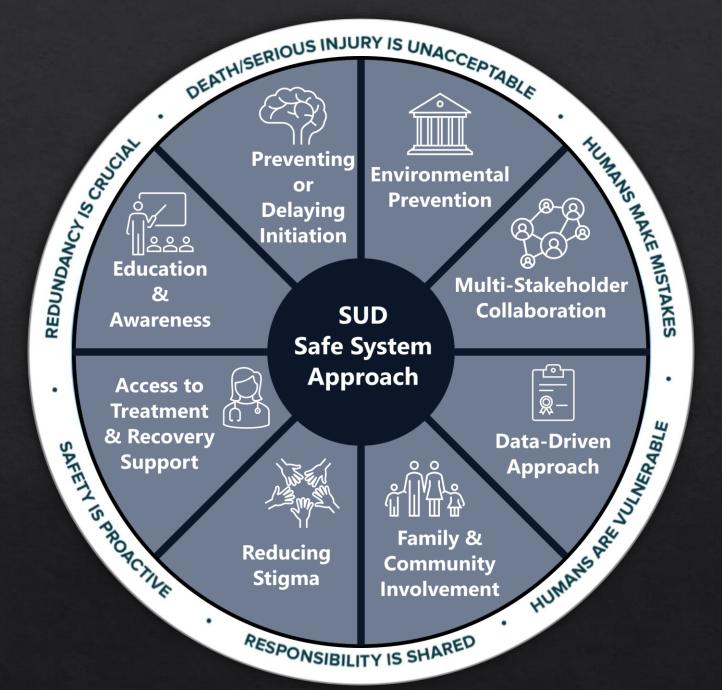

Artistic, colorful love design, Jackson Pollock- type

Pixar Cartoon, happy family with 2 young children, standing outside of car posing for a photo, mountain road background and a friendly and gentle Megaldon on a white background, Pixar style cartoon

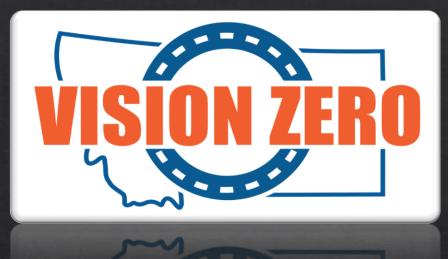

What if there was a Substance Use Disorder Safe System Approach?

Regardless of what's on the inside.. It' still the sawm "Why" on the outside.
